Da vinci metodu pdf online editor gratuit de

Use the clone palette to ensure every bit of data in the camera media cards is copied during backup. During edit or grading, stream video outputs to a remote client monitor via DeckLink. Best of all, you no longer have to import and export files, translate projects, lose work, or conform and manage changes. \$9,595 Empty 4 bay Fairlight studio console chassis that can be populated with various faders, channel controls, edit and LCD monitors. You also get complete media management, organization and timeline management tools. \$4,595 12 groups of touch sensitive rotary control knobs and illuminated buttons, assignable to fader strips, single channel or master bus. Once you learn the software and start using it for more work, you can purchase DaVinci Resolve Studio which adds tons of additional effects, 3D and more. Now you can collaborate with editors, colorists, visual effects artists, and sound engineers all working together at the same time. Includes blank infill panels. All it takes is a single click to switch between tasks! The edit page is the world's most advanced professional non-linear editor. The color page has an incredible range of primary and secondary color grading features including PowerWindows™, qualifiers, tracking, advanced HDR grading tools and more! Learn More The Fusion page lets you create cinematic visual effects and broadcast quality motion graphics right inside of DaVinci Resolve! Fusion features a node based workflow that makes it faster and easier to create sophisticated effects and animations than you could ever create using a layer based approach. \$21,995 Complete Fairlight studio console with 2 channel faders, 2 channel controls, 1 audio editor, 3 LCD monitors and 3 bay chassis. It's like having a professional digital audio workstation (DAW) built into your editing and color system! Familiar keyboard based editing tools let you work extremely fast, especially if you're moving to Fairlight from another system. \$995 Adds analog and digital connections, preamps for mics and instruments, sample rate conversion and sync at any standard frame rate. For example, it enables facial recognition to sort and organize clips into bins based on people in the shot, to reframe shots and more. \$199 Adds 3 MADI I/O connections to the single MADI on the accelerator card, for a total of 256 inputs and outputs at 24 bit and 48kHz. \$195 Add up to 2,000 tracks with real time processing of EQ, dynamics, 6 plug-ins per track, plus MADI for extra 64 inputs and outputs. It's like having your own post production studio in a single app! Best of all, by learning DaVinci Resolve, you're learning how to use the exact same tools used by Hollywood professionals! High end professionals working on feature films and television shows use DaVinci Resolve more than any other solution! That's because it's known for incredible quality and creative tools that are light years beyond the competition. Learn More Responsive Project Libraries Professional Trimming Functions Robust Proxy Editing Customisable Effects and Titles Subtitles and Closed Captioning The cut page is perfect for projects with tight deadlines that you have to turn around quickly. \$185 Blank panel to fill in the LCD monitor area of the Fairlight studio console when you're not using the standard Fairlight LCD monitor. The DaVinci Resolve Mini Panel features additional controls and screens for accessing virtually all palettes and tools. For example, new primary control sliders will be familiar to anyone who's used image editing software, making it easy to adjust contrast, temperature, midtone detail, saturation and more. \$819 This model includes the features of the micro panel model plus two LCDs with menus and buttons for switching tools, adding color corrector nodes, applying secondary grades and using Power Windows. \$605 Side arm kit mounts into Fairlight console mounting bar and holds each fader, channel control and LCD monitor module. DaVinci Resolve keyboards have been designed as an alternative way to edit that's much faster than a mouse because you can use both hands at the same time! The DaVinci Speed Editor features dedicated edit function keys on the left and a high quality search dial with electronic clutch and transport controls on the right. The incredibly small DaVinci Resolve Micro Panel is great for new colorists just getting started or anyone that needs a portable panel. You get hundreds of 2D and 3D tools for visual effects and motion graphics, along with advanced animation curve and keyframe editors that allow you to create incredibly organic and realistic animations. That means you'll spend more time editing and less time hunting for commands. The Proxy Generator app creates and manages proxies for you. \$12,995 Use alternative HDMI or SDI televisions and monitors when building a Fairlight studio console. \$495 Allows mounting standard 19 inch rack mount equipment in the channel control area of the Fairlight studio console. While the new Blackmagic Cloud lets you host and access your projects from anywhere in the world. You can extend DaVinci Resolve with third party Open FX and audio plugins, or add third party title and motion graphics templates. Learn More DaVinci Resolve color panels let you adjust multiple parameters at once so you can create unique looks that are impossible with a mouse and keyboard. The familiar track layout, dual monitor design and traditional workflow makes it easy for new users to learn while still being powerful enough for professional editors. \$365 Mounting bar with locating pins to allow correct alignment of bay modules when building a custom 3 bay Fairlight console. You can output and upload files to YouTube, Vimeo and Twitter from anywhere page using the quick export tool. It also supports 10-bit video at up to 120 frames per second and resolutions beyond 4K. \$595 Low profile panel features 3 high resolution trackballs and 12 precision machined knobs to access the primary color correction tools. That's why there's a free version of DaVinci Resolve, so you can learn how to use the same tools that professional Hollywood artists use. Includes buttons for common features and workspace navigation. \$259 Mounting bar with locating pins to allow correct alignment of bay modules when building a custom 2 bay Fairlight console. The cut page has a streamlined interface that's fast to learn and designed for speed. The deliver page gives you total control over all encoding options and formats, along with a render queue for exporting multiple jobs! Learn More Automatic A/V Syncing Smart Metadata Management Render Options Remote Rendering Workflow Plugins DaVinci Resolve Studio 18 features over 100 GPU and CPU accelerated Resolve FX such as blurs, light effects, noise, image restoration, beauty enhancement, stylize and more! Version 18 adds even more plugins for depth map generation, surface tracking, fast noise, and despilling. The DaVinci Neural Engine provides simple tools to solve complex, repetitive and time consuming problems. \$239 Blank panel to fill in the channel control area of the Fairlight studio console. \$2,495 Get quick access to virtually every Fairlight feature! Includes a 12" LCD, graphical keyboard, macro keys, transport controls and more. All without touching the mouse! The DaVinci Resolve Editor Keyboard adds a QWERTY keyboard with color coded shortcut keycaps, designed for editors who spend hours each day editing. You can mix and master stereo, 5.1, 7.1, and even the latest immersive 3D audio formats, all within the same project! Learn More The media and delivery pages have everything you need to import, manage and deliver final projects. Buy Online Now \$295 Hollywood's most popular solution for editing, visual effects, motion graphics, color correction and audio post production, all in a single software tool for Mac, Windows and Linux! Free Includes everything in the free version plus DaVinci Neural Engine, stereoscopic 3D tools, dozens of extra Resolve FX filters and Fairlight FX audio plugins plus advanced HDR grading and HDR scopes. New workflow integration and encoding APIs let developers integrate workflow and asset management systems with DaVinci Resolve. You also get the legendary quality of Fairlight audio processing for the best sound in the industry! With DaVinci Resolve, you get the same tools professional colorists, editors, VFX artists and sound engineers use every day to finish your favorite films and streaming television shows! DaVinci Resolve 18 features a whole new way of remote collaboration using cloud based workflows! You can host project libraries using Blackmagic Cloud and collaborate on the same timeline, in real time with multiple users all over the world. Plus, it works with all major file formats and post production software, making it easy to move files between DaVinci Resolve, Final Cut Pro, Media Composer, and Premiere Pro. Editing is done on the cut and edit pages, visual effects and motion graphics on the Fusion page, color correction on the color page, audio on the Fairlight page, and media organization and output on the media and deliver pages. DaVinci Resolve is designed to inspire creativity so you can focus on doing your best work. That means you'll spend more time being creative and work faster than using just a mouse and keyboard! The Fairlight Desktop Console is a complete mixing console that's ideal for use in home studios, small suites or on the road. Adding an editor keyboard, color control panel, or audio console lets you work even faster because you can use both hands at the same time, allowing you to be more creative and do things that are impossible with a mouse! DaVinci Resolve is the world's only all in one solution for editing, color, VFX, motion graphics and audio! The free version works with virtually all 8-bit video formats at up to 60fps in resolutions as high as Ultra HD 3840 x 2160. The free version includes multi-user collaboration and HDR grading! Free Download Now Includes everything in the free version plus the DaVinci Neural Engine, dozens of additional Resolve FX, temporal and spatial noise reduction, stereoscopic 3D, film grain, optical blur and mist effects, and more. It's perfect for larger projects such as feature films, television shows, streaming, commercials, documentaries and more. Automatically generate a 3D matte of a scene with the depth map FX to grade or add effects to a background or foreground. \$4,395 Features HDMI, SDI inputs for video and computer monitoring and Ethernet for graphics display of channel status and meters. You can also install Fairlight Studio Console components into your own desk or purchase a pre-configured multi bay Fairlight console for dedicated audio suites and scoring stages! Learn More The best creative tools shouldn't be limited to Hollywood. \$39,995 Complete Fairlight studio console with 4 channel faders, 4 channel controls, 1 audio editor, 5 LCD monitors and 5 bay chassis. You get DaVinci's Emmy™ award winning image technology with 32-bit float processing, patented YRGB color science and a massive wide gamut color space for the latest HDR workflows. That means you can work with camera original quality images throughout the entire process. The sync bin and source overwrite tools are the fastest way to edit multicam programs, making it easy to create perfectly synchronized cut aways! Everything on the cut page is action based so every click does something. You can relink original media and proxies in a single click! Apple Neural Engine support allows up to 30x faster playback on Apple Mac M1 models. Featuring a metal search dial with clutch, plus extra edit, trim and timecode keys. You can use the search dial and source tape buttons with your right hand to locate shots, while simultaneously marking in and out points, performing edits and live trimming with your left hand. \$295 Includes large search dial in a design that includes only the specific keys needed for editing. \$535 Mounting bar with locating pins to allow correct alignment of bay modules when building a custom 5 bay Fairlight console. With all the different workflows and systems available, you need a post production solution that's compatible and open enough to handle anything! DaVinci Resolve can be used with any type of storage ranging from direct attached hard drives to NAS and SAN systems. Track the movement of textured surfaces with the surface tracker effect to apply images to t-shirts, flags and faces! All Resolve FX effects can be applied and animated in the cut, edit, Fusion and color pages! The DaVinci Neural Engine uses state of the art deep neural networks and machine learning, along with artificial intelligence to power features such as facial recognition, object detection, smart reframing, speed warp retiming, super scale up-scaling, auto color and color matching and more! The DaVinci Neural Engine is entirely cross platform, using the latest GPU innovations for AI and deep learning to provide unparalleled performance and quality. DaVinci Resolve is the world's only solution that combines editing, color correction, visual effects, motion graphics and audio post production all in one software tool! Its elegant, modern interface is fast to learn and easy for new users, yet powerful for professionals. Your browser does not support HTML5 video. \$8,595 Empty 3 bay Fairlight studio console chassis that can be populated with various faders, channel controls, edit and LCD monitors. DaVinci Resolve 18 includes new Resolve FX such as ultra beauty and 3D depth maps, improved subtitling for editors, Fairlight fixed bus to FlexBus conversion and more! Learn More DaVinci Resolve is the only solution that lets you grow and build your own multi user post production studio! The newly redesigned project libraries are built for real time local and remote collaboration. \$2,295 \$48,995 Fairlight studio console legs at 0° angle for when you require a flat working surface. \$425 Blank panel to fill in the fader control area of the Fairlight studio console. For the ultimate in control, the DaVinci Resolve Advanced Panel gives high end professional colorists access to every single feature and command mapped to a specific button! Learn More DaVinci Resolve Mini Panel DaVinci Resolve Micro Panel DaVinci Resolve Advanced Panel Designed in collaboration with professional sound engineers, Fairlight hardware consoles streamline your workflow, acting as a natural extension of the software. \$395 Features 12 motorized faders, rotary control knobs illuminated buttons for pan, solo, mute and call, plus bank select buttons. The edit page features drag and drop editing, context sensitive automatic trimming tools, fully customizable keyboard shortcuts so you can work faster, and a library full of hundreds of titles, transitions, and effects that you can add and animate. DaVinci Resolve lets you work faster and at a higher quality because you don't have to learn multiple apps or switch software for different tasks. \$395 Fairlight studio console legs at 8° angle for when you require a slightly angled working surface. \$1,195 Empty 2 bay Fairlight studio console chassis that can be populated with various faders, channel controls, edit and LCD monitors. DaVinci Resolve is the only application in the world that lets everyone work together in parallel on the same project and at the same time! Learn More DaVinci Resolve 18 Cut Page DaVinci Resolve is divided into "pages", each of which gives you a dedicated workspace and tools for a specific task. The media page is a dedicated full screen workspace that lets you prepare footage, sync clips, organize media into bins and add metadata before you start editing. There's even improvements to the beauty effect, edge detection and lens reflections. \$235 Blank 1/3rd wide bay for building a custom console with the extra 1/3rd section. The incredible new Fairlight Audio Core lets you work with up to 2,000 tracks at a time with realtime effects, EQ, and dynamics processing! You get sample accurate editing tools, advanced ADR and Foley, and Fairlight FX such as reverb, de-esser, hum remover and more. Plus, the scalable interface is great for portable editing! Learn More Source Tape Source Overwrite Audio Trim View Smart Reframe Multicam Editing The DaVinci Resolve color page is Hollywood's most advanced color corrector and has been used to color and finish more high end feature films and television shows than any other system! It's also approachable with features designed to make it easier for new users to get great results while they continue to learn the advanced tools. Includes Bluetooth with battery for wireless use so it's more portable than a full sized keyboard! \$395 Full sized traditional QWERTY editor keyboard in a premium metal design. Modular design allows customizing 2, 3, 4, or 5 bay consoles! From \$21,995 Complete Fairlight studio console with 1 channel fader, 1 channel control, 1 audio editor, 2 LCD monitors and 2 bay chassis. Features such as source tape, dual timelines, fast review, and smart editing tools help you work faster than ever. It's also great for documentary work. \$2,049 Designed in collaboration with professional Hollywood colorists, the DaVinci Resolve Advanced Panel features a massive number of controls for direct access to every DaVinci color correction feature. \$465 Mounting bar with locating pins to allow correct alignment of bay modules when building a custom 4 bay Fairlight console. \$29,995 Portable audio control surface includes 12 premium touch sensitive flying faders, channel LCDs for advanced processing, automation and transport controls plus HDMI for an external graphics display. \$10,995 Empty 5 bay Fairlight studio console chassis that can be populated with various faders, channel controls, edit and LCD monitors. \$29,995 Complete Fairlight studio console with 3 channel faders, 3 channel controls, 1 audio editor, 4 LCD monitors and 4 bay chassis. \$4,395 Used by Hollywood and broadcast, Fairlight consoles make it possible to mix large projects with a massive number of channels and tracks. Can be installed inset for flush mounting. The intuitive, task based design adapts automatically, putting the controls you need right at your fingertips when you need them. DaVinci Resolve has a new proxy menu, which makes working with them automatic. It features 3 high quality trackballs, knobs for primary adjustment controls and buttons for playback and navigation. Fusion has everything from point, planar and 3D camera tracking to rotoescape and keying tools for creating photorealistic composites, stunning animated titles, 3D particle systems and more! Learn More The Fairlight page features hundreds of pro tools for audio post production. \$3,595 Get incredibly fast audio editing for sound engineers working on tight deadlines! Includes LCD screen, touch sensitive control knobs, built in search dial and full keyboard with multi function keys. Required for all Fairlight Studio Consoles.
